Dated : 05-02-2026

To Whom It May Concern **إلى من يهمه الأمر**

Subject : Medical Report

Patient : Ms Manwara Begum **Passport No.#** : A1693818

Nationality : Bangladesh **D.O.B** :15-03-1965 (61 Yrs.)

This is to Certify that Ms Manwara Begum was seen and assessed on Febuary 02, 2026.

Clinical Findings & Diagnosis:
The patient presented with symptoms including:

- Severe dizziness (Vertigo) & loss of balance.
- Persistent Vomiting & Nausea.
- Extreme Physical weakness

Based on the clinical assessment, the patient is diagnosed with:

1. Acute Vertigo with Cervical Spondylosis flare-up.

Recommendation:
Due to the current medical condition, Ms Manwara Begum is experiencing significant discomfort and is advised to : Rx (Meicines) : 1- Tab BETASERC 16mg (1-0-1) x 7 Days
2- Tab MOTILIUM 10mg (1-1-1) before foo x 5 Days
3- Cap Neurobion Forte (0-0-1) x 20 Days
4- ORS Sachet (As needed for hydration).

Fitness for Travel:
In view of the above diagnosis and symptoms, the patient is currently **NOT FIT FOR TRAVELING.** Traveling at this time could exacerbate the condition and potentially risk the health of others.

Period of Rest Advised:
The patient requires a period of rest and recovery for at least Twenty One (21) days.
from 05 Febuary 2026 to 26 Febuary 2026 inclusive.
